DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4 and 12-14, drawn to a SSB mixer using four mixers and a bandpass filter in the upper sideband of figure 2.
 - II. Claims 5-8 and 15-16, drawn to SSB mixer using four mixers and a bandpass filter in the upper sideband but uses opposite phases of the input IF signal of figure 9.
 - III. Claims 9-11 and 17-18, drawn to SSB mixer using two mixers and a low pass filter to pass the base band signal of figure 10.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, all three inventions have different modes of operations and thus are patentably distinct.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Frank V. DeRosa on 10/18/05 to request an oral election to the above restriction requirement, but did not result in an election being made since he was not present.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
